

FROM THE DISTRICT SUPERINTENDENT

Dear Parents and Community Members,

The Oregon School Report Card shares results from the Smarter Balanced assessments our 3rd – 8th and 11th grade students took last spring. This report is a snapshot of our students’ mastery of the Common Core Standards and their preparation for college and the workplace.

We are encouraged by the numbers of students who are on track for graduation with the skills and knowledge they need to be successful, contributing citizens of the 21st Century.

However, this snapshot also shows us the need for greater urgency to provide all our students – especially those who speak diverse languages, have special needs or economic barriers – with the support and access they deserve to reach their highest potential. We accept that challenge.

Every child deserves an education that opens doors and gives them a chance to succeed.

Our school board, district leadership, teachers and staff are fully committed to “All Means All” and accept the collective responsibility for the success of every student. We believe we can achieve that goal through 21st Century teaching and learning in our schools. We cannot, and do not, achieve this alone. An important part of every student’s academic success is the engagement and involvement of their families and community members. We thank our parents and community for their willing and enthusiastic partnership in our efforts to support all students in our community.

Thank you,

Superintendent | Kym LeBlanc-Esparza
