Re: Asbestos in District Buildings

In accordance with the requirements of the Asbestos Hazard Emergency Response Act (AHERA) the District is required to annually inform employees that some portions of District facilities still contain asbestos.

The asbestos has been identified, contained, catalogued, and an asbestos management plan developed for each individual facility in accordance with AHERA requirements. Plans for each facility are maintained in that facility's administrative office as well as in the Physical Plant office.

The plans are available for on site review by any interested employee or member of the public. Copies can be made for the cost of reproduction. If you have questions concerning the management of asbestos in the Newberg School District please contact me at the Physical Plant Office or call extension 5022.

Sincerely,

Larry Hampton  
Operations & Safety Coordinator  
AHERA Designated Person

Re: Asbestos in District Buildings

Dear Jennifer,

In accordance with the requirements of the Asbestos Hazard Emergency Response Act (AHERA) the District is required to inform your association on an annual basis that some portions of District facilities still contain asbestos.

The asbestos has been identified, contained, catalogued, and an asbestos management plan developed for each individual facility in accordance with AHERA requirements. The plan for each facility is maintained in that facility's administrative office as well as in the Physical Plant office.

The plans are available for on site review by any interested association member or member of the public and copies can be made for the cost of reproduction. If you have questions concerning the management of asbestos in the Newberg School District please contact me at the Physical Plant Office or call extension 5022.

Sincerely,

Larry Hampton  
Operations & Safety Coordinator  
AHERA Designated Person
